Starred Review. Kindergarten-Grade 4—Beginning with pages that open vertically instead of horizontally, this tongue-in-cheek tale takes a typical love story and sets it squarely—and amusingly—on end. Ross's vibrantly hued pen-and-ink and watercolor cartoons depict the edge of a pond where a caterpillar and a tadpole meet and fall in love: "She was his beautiful rainbow, and he was her shiny black pearl." Perched on a leaf above the water, she smiles down at her sweetheart and asks him to "Promise you'll never change." Although he agrees, some vows are difficult to keep, and when they next meet, he has sprouted two legs. She forgives him, but after he

breaks his promise twice more and now looks more like a frog than her "shiny black pearl," the lovelorn larva ends the affair and cries herself to sleep (sequestered in a cocoon). Meanwhile, the melancholy frog sulks around the pond, making heart-shaped air bubbles that rise to the surface and burst. When the caterpillar awakens, now a butterfly, she decides to forgive her beloved and flies above the water to find him. Without a thought, the frog swallows her whole, and then returns to wondering about whatever happened to his "beautiful rainbow." Willis strikes the perfect balance between the deadpan telling and the humorously overblown dialogue shared by the star-crossed pair, while the artwork masterfully enhances each and every nuance. Enjoy this funny story on its own merits or try using it to lighten up a science lesson. —Joy Fleishhacker, School Library Journal Copyright © Reed Business Information, a division of Reed Elsevier Inc. Being that the Editorial Review explains the story in full detail I won't reiterate the ending, which is the crux of this story. I checked this book out from the library because my daughter is very interested in tadpoles and frogs. I must say that I was aghast when I read the ending of this story. Luckily (so I thought) I read it on my own while my daughter was in bed. Being that days earlier we released a monarch butterfly that we had from the caterpillar stage, I figured this was NOT a book for my daughter. I made the mistake of leaving the book out though and she saw it and begged me to read it to her, which I did reluctantly. She LOVED it!! She laughed hysterically at the ending. I was worried that she would be upset, but there sat my 4 year old laughing and laughing, "Read it again, read it again!!" That gave me permission to love the story and the uniqueness of it. I and every other adult that I gave it to thought there would be the happy couple at the happy ending because the caterpillar would see the error of her ways once she changed into a butterfly (ho hum, yawn). Each was just as shocked as I was at the outcome. Every kid we shared it with thought it was soooo funny. Because of the surprise ending, my daughter is very eager to share the book and she

delights in the reader's reaction. She gets to experience the surprise over and over through each reader. I find the vertical format to be a clever arrangement for this sky and underwater story. I also like the illustrator's style and feel that he adds to the story with little extras, like a fish chasing some other tadpoles (a bit of foreshadowing) and vice versa. I also like the frog offering the caterpillar a water plant much like a person offering a bouquet of flowers when asking for forgiveness. And the ironic image of the frog with the caterpillar's new wings (her change which we thought was going to make all well) sticking out of his mouth: priceless. Although be it a bit (ok, a lot) unorthodox, this is a story about accepting each others differences...and if you're mean you pay for it! :o) Needless to say, this book is on our wish list ready for our next purchase and will also be given as gifts...but only to those we know can handle it.

Amazing book, but it's not suitable for children. Would be an amazing gift for someone getting a divorce because it's about how someone who loves another person could hurt them.

Best. Children's book. Ever.

This is my 4-year-old daughter's favorite book. She loves to read it with mom or dad and just laugh and laugh at the ending. I found her the other night reciting (from memory) the book while lying in bed. The illustrations are inviting, with a humorous "side story" evolving (so to speak) in pictures at the bottom of the pages. The writing is concise and flows nicely. My daughter is a nature lover, and we have always been open with her about the circle of life. This mild and funny book has a twist of an ending that apparently offends parents who prefer to shield their children from the reality of nature. However, [spoiler alert] a watercolor frog eating a watercolor butterfly is hardly graphic and, in fact, in the context of this great book is rather hilarious.

I had already owned this book, loaned it to a friend and lost it, so I needed a replacement. The best part of this book is the totally unexpected ending which I will NOT reveal here! It might upset younger children because it could possibly make them sad, so preview it before you use it as a read aloud. But I read it to teachers at professional development sessions to get their attention! They ALWAYS gasp at the ending!!

If you are a real family and have a sense of humor, get this book. Its great. My 2.5 year old LOVES it. We read it over and over and its educational too.

Books received in good condition. Thank you.

We think this book is hilarious!
