Bought this calendar for my desk at work. I look forward to flipping each page every morning to read a little history of the era and tidbits from the show. I really miss watching the Crawleys each week on PBS, but this calendar gives me a daily dose to enjoy.

Purchased this for an office mate, who was going through Downton Abbey withdrawal. He loves it,

and leaves the old pages on my desk for my own Downton Abbey walk through memory lane. It was a great X-mas present and was really appreciated.

Love Downton Abbey and the calendar is sometimes a funny, often historically significant, and mostly series reminiscent daily read. Great choice!

Very cute as well as classy. I actually save some of them because they're so pretty and give a few to family and friends. I like that in addition to famous quotes from the show, they also include a couple interesting historical trivia facts that are relevant and fun to know from the time period. If you like DA and want a little piece of its decadence every day, this is a great piece for your office or bedroom.

Bought two of these for gifts for obsessive fans of that series - they both loved the calendars

I give this to my mom as one of her Christmas presents every year. It's become a tradition. She loves reading the quotes on it everyday and keeps it in her room at work. She has bonded with many of her patients over this calendar. I hope they don't stop making them now that the show has ended!

I like Page-A-Day calendars and buy many of them. I was a bit disappointed that numerous days have no photographs but just snippets of history. The information is fascinating and I realize 365 days is a lot of "Downton Abbey" photographs to come up with, but that's why I bought it.

Nothing like a Downton Calendar
