Sick Of Healthcare

Synopsis

Trapped in a job with limited advancement potential, Sick of Healthcare takes the reader inside a health insurance call center where the employees care more about casual day dress code options than talking to the callers. Chaz Yorick has been writing and performing poetry for over a decade and has been working soul crushing jobs for longer than that. Sick of Healthcare is his first published non-poetry work.

Customer Reviews

In his usual wacky and offbeat style Chaz allows us a look 1st hand at the runny and sometimes demeaning job in a health care call center. This is the "the IT crowd" for call centers. If you have ever worked in a call center you will find yourself nodding in agreement to some of the things in this great book.
