Customer Reviews

I enjoyed this book as a avid Racing Fan. It gave me some great ideas, on looking for higher priced horses. The general public, tends to over look these picks. Always remember the trainer's in most

cases, have prepared their horses, for that race.

Good read and very interesting angles! I have been playing the ponies for 60 years and I learned something new from this book and have been hitting some longshots when they appear! Christian Blake makes things simple and clear, the angles are solid spot plays and you will find the simpler you can make things the better!

A nice quick read for beginners and helpful for intermediates too. Consider this, as with all handicapping books, as one piece in your overall arsenal. Don't forget to follow your gut too.

Easy and interesting read presenting angles that point toward the more pricey horses and race types. I've been handicapping for quite a few years with some success using the following rules:- No first time starter races.- No Maiden races- No hurdles.- No races greater than one & one-eighth mile. However, Christian's comments on MSW and Maiden races presents food for thought. If I might suggest a follow-up a couple more examples would be nice. Not a key to the mint but a clear easy to read book. For ten bucks you can't lose go for it.

The theories presented seem sound. I will handicap a few races and test their merit. This is a well written book.

This book exposed some of the myths about potential Longshot winners. The explanation of the categories was excellent. What to look for was clearly presented. A user of PP's or Software can both benefit from the information in this book. Thanks Blake !

Cristian is very concise and direct in explaining his thought process for picking long shots. It's very easy to read and I love the template he gives for you to use. Great book. ! Thanks !

Very interesting thought provoking analysis
