# Young Justice Vol. 1

## **Synopsis**

Don't call them sidekicks! The Justice League needs a covert team that could operate on the sly, so who better than experienced crime fighters Robin, Kid Flash and Aqualad? Together with Superboy, recently rescued from the top-secret Project Cadmus, and the crush-worthy shape-shifting alien Miss Martian, these teens are ready to stop being sidekicks and start taking down their own villains—like League of Shadows and the Joker—all on their own. But Superboy may have a secret mission of his own to complete ... destroying Superman! Based on the hit Cartoon Network series!

Born in Chicago, Art Baltazar found his way early to comic book art and has been cartooning ever since he can recall, self-publishing in 1994 with such titles as The Cray-Baby Adventures, Gyro-Man, Captain Camel & the Space Chicken, Jimmy Dydo, Lunar Lizard, Meteor Mite and the famous Patrick the Wolf Boy. Art has also drawn coloring books for Warner Bros. and has a monthly comic strip in Disney Adventures Magazine called Gorilla Gorilla! Art also created an autobiographical graphic novel called The Big Amoeba for Platinum Studios. He lives outside of Chicago with his wife, Rose, and children Sonny, Gordon, and Audrey.

I should start by saying that I'm a big fan of the show, so if you haven't seen it, then this might not be very helpful for you. For the most part, I liked the comics--I really enjoyed seeing some of the adventures that never made it to the show, as well as filling in some of the details about characters' backstories, and the things they did in their "downtime". The comics weren't quite as exciting as the actual episodes, though, and so far I still prefer those. Still, I plan to pick up vol. 2 as well. :) I'm also REALLY glad they decided to release volumes with multiple issues of the comic at the same time. I can't seem to find the comics in any of my local stores, and I didn't really want to buy them one by one online. Much more convenient!

I really really really love the comic version of Young Justice. The volume follows the storyline of the show, but it goes into details about events that you don't see on the show. It goes into depth about the back stories of all the characters and what happens on the missions with their mentors. If you never watched the show (you should!), you can probably still read the comic, but you might be confused with the main storyline.

I enjoyed this as it let you learn more about your favorite young heroes. You learned why Superboy hates monkeys, other missions the team has gone on and see that they aren't a perfect team and make some serious mistakes that you don't get to see in the show. It was really nice to read this and I wish they came out with more than for volumes to read.

I am loving your product and I will purchase more in the future!

I am a fan of the show but new to comic books but I found this an enjoyable read it helps explain the back stories all the characters it is not as strong volumes 2 and 3 but I think that is a case of improvement over time. and would the person who keeps complaining about windows 8 please stop griping at these books it is not the books fault.

I thought it was ok. It was a little confusing with the different stories and all but I liked it. But there was one erk that I had... that you showed Artemis on the cover and yet she was never in the book. And every book I've read had some sort of conflict but this one didn't so much. I can't wait to read volume two hope you add these improvements.

This is a great companion to the first 4 episodes. I liked how it told more about the stuff between the

episodes. If you like Young Justice at all, this is the thing for you. But if you've never seen the show don't get this. You won't get the story. I thought it was interesting how at the end it told all of their origins that they didn't tell in the show. I really liked Robin's story! I loved this!

In PERFECT condition. Thank you for sending it in plastic and cardboard to keep it from getting damaged. It was a good read, I really like how the comics focus on what happens off screen! If you like the show, buy the tie in comics!
