Customer Reviews

Very short compilation of ideas that are very basic. Helpful for those who are considering simplifying for the first time. There's a lot to be said for the ability to appreciate what one has, rather than mindless accumulation of material things. I think this is the real joy of a minimalist lifestyle. For me, there is a happy medium between the two points. I've always been money wise, but I do enjoy spending as well.

great book, and service

I love this book and the author and she has a down to earth writing ability. I love how it feels like she is sharing hints and ways to help with saving money. Every little bit helps.

5 star rating because the author 'painlessly' gives a wonderful synopsis for frugal living and saving money. I love it!!

My husband and I are older but still need to work and there are a lot of great ideas for us here! Thanks for the information! Priceless!

Lots of well written quick info you can apply asap! I'm getting the rest of her books & hoping they have more great info! Thank you Kate for choosing to share your journey!

There is a lot of very useful information and creative ideas in this book. It is well worth the cost.

I'm always on the lookout for some new and inspiring info on frugal living, unfortunately this book does neither. Very basic and sorta boring.
