Customer Reviews

Weighty and impressive; just the ticket for any seeking a language program which is comprehensive. --Midwest Book Review

In January 2003, the renowned Berlitz Publishing became part of the Langenscheidt Group. The Langenscheidt Publishing Group, the premier group of map and travel companies, offers over 4,000

North American and international street maps, road maps, atlases, language-learning, bilingual dictionaries, and travel-related products covering countries, cities, and languages in every continent.

I used to love Berlitz. However this is NOT a book to learn how to speak German. This is like a textbook where you have some exercise for school. And even as a textbook is horrible, just a bunch of questions with no sequence or technique to help learning a foreign language. The quality of the paper and the drawing are excellent, however, the content is not useful at all. Do not waste your money, instead buy "Berlitz basic German" which is the traditional Berlitz approach. If you have the money buy Pimsleur sets of CD's instead.

For the price, this material is okay. I completed Pimsleur German I to III before I used this, and am so glad I did study this way. This is more like you to remember vocabularies, which Pimsleur lacks a bit. This material will not make you to be able to carry conversation at all but at least you can learn necessary vocabularies.

This is a good intermediate German course useful for the traveler. It would be better if there were complete translations of all the text from English to German. Requires some effort to study and apply.

Great product. It is very helpful if you have a basic understanding of the language. I would recommend this course for someone that is willing to put in the time to learn German.

Very neat, particularly the audio part. I listen to it in the car and it is well structured and easy to comprehend.

This is such a good material Berlitz always have great books, You can use this book after you learn the basic of German it's not for beginners, I think It will help to improve the German you've already learnedPd: I thought it was a bigger book but it's not that big

This is a super book for those who think they have mastered the basics. It is very well presented and the scenarios on the recordings are interesting and easy to follow.

Just what I needed to take the next step. Got a good value on .
