shipping took quite a while was backordered but it is what was required for his class. Just as described.

Very comprehensive; bought this for my son, who is a Water Technician and in the process of taking promotional exams at work - very helpful. Thanks

I paid \$87 for the book. The seller ordered it on my behalf from the Office of Water Programs for \$49 and had it shipped directly to me, making an arbitrage profit. Save yourself the money and buy it new from the authoring organization: <http://www.owp.csus.edu/courses/drinking-water.php>
