Foundations Of Clinical Nurse Specialist Practice, Second Edition

Synopsis

2014 AJN Book of the Year Award Winner in Advanced Practice Nursing, First Place Designated a Doody's Core Title! This widely acclaimed resource has been improved with this update. It is an excellent addition to the library of clinical nurse specialist students, faculty, and current practitioners. The release of the second edition ensures that the information is current for the ever-changing healthcare environment." Score: 100, 5 stars Now in its second edition, this highly acclaimed text remains the only cohesive, comprehensive textbook and professional reference for CNS education and practice. Supported by theory, research, and current literature, the text focuses on CNS roles and scope of practice, expanding opportunities in primary and home care settings, and on outcomes of CNS practice across the care continuum. This second edition reflects two emerging trends affecting CNS practice: an increased focus on transitional care (continuity across the care setting continuum) and new Centers for Medicare Services reimbursement rules related to pressure ulcers, fall and infection prevention, and pain management. Additionally, the second edition places increased emphasis on CNS practice outcomes and newly emerging roles in chronic illness management in primary and home care settings. Contributors to this edition represent the "Who's Who" of CNS Nursing. Outstanding features include text boxes throughout that highlight core competencies and practice outcomes identified in NACNS's Statement on Clinical Nurse Specialist Practice and Education. Additional chapter features include discussion questions, analysis and synthesis exercises, and clinical application considerations. The text also contains four models of CNS specialty care, and 10 exemplars of CNS practice, all including outcomes. New to the Second Edition: Increased focus on transitional care, primary care, program evaluation, and opportunities for CNS within the ACO and Medicare Emphasis on CNS role and practice outcomes pertaining to care of pressure ulcers, fall and infection prevention, and pain management New chapter on Program Evaluation New chapter on Affordable Care Organizations: New Horizons for CNS Practice New chapter on economics of CNS practice New chapter on CNS in primary care

Customer Reviews

Janet S. Fulton, PhD, RN, ACNS-BC, ANEF, FAAN, is a professor at Indiana University School of Nursing and coordinator of the Adult/Gerontology (clinical nurse specialist [CNS]) program. She is the editor-in-chief of *Clinical Nurse Specialist: The International Journal of Advanced Nursing Practice* and past president of the National Association of Clinical Nurse Specialists (NACNS). She also served as coordinator of the Oncology Nursing Society's CNS Special Interest Group and was a member of the American Nurses Association Council of CNS. She is widely published in the area of CNS practice and education, and is coeditor of *Foundations of Clinical Nurse Specialist Practice*, the only comprehensive textbook for CNS students.

Good information

very helpful textbook used for my nursing masters degree

Excellent text for CNS students. Will be one of the books students keep beyond graduation.

very well as expected!

great!

Good print and cover quality. No issues.

Verbose, without clearly delineated facts or substance that one can learn or implement. Chapter after chapter the same. Bought to use as review for ANCC certification. Not recommend
