Customer Reviews

My biggest comment is that he should proof read these books as they are full of errors.

I enjoyed it. Anything that involves Puget Sound and the Northwest interests me. It was written in such a way that I could almost visualize his whole trip. I have never been around boats very much so I was interested to read about his boat problems and to try to learn about the parts of his kind of boat. It is a short one afternoon read. The text had several misplaced words in the sentences but it was not really distracting. Wishing the author many more enjoyable adventures!

James writes a short story that I rather enjoyed. I look forward to sailing the San Juans and was

looking for some shared experiences. I wish it was longer. Thank you.
