Property: Principles And Policies (University Casebook Series)

Synopsis

This revised casebook is designed for a “building block” Property course that serves as a student’s foundation for the rest of law school and beyond. Avoiding the typical hodge-podge of issues, the book presents the material in an integrated way, starting with the central role of exclusive in rem rights in property and systematically developing elaborations, exceptions, and counterfoils to this idea, using vivid cases old and new. Timely issues in intellectual property, mortgages, and regulatory takings, as well as traditional topics like equity and restitution, are given expansive treatment. The emphasis throughout is on fundamental principles and policy questions.

Customer Reviews

The book is fine, however, I bought the book because the Casebook Connect online program was said to have come with the book. In fact, it even said so on the outside of the book before I opened it, which is why I kept it instead of getting it for the same price at my bookstore. Well, there is no Casebook Connect included and now I will be forced to pay additional money because I need it for class. This is false advertising and very upsetting (especially to a broke law student).

Merrill offers an excellent foundation through this textbook, which is readable, well-written, and has the same wit he uses in the classroom.
