The Ultimate Bar Book: The Comprehensive Guide To Over 1,000 Cocktails

Synopsis

Ultimate Bar Book is the first and only guide to classic and new drink recipes. Loaded with essential-to-know topics such as barware, tools, and mixing tips, this book has it all. As a mistress of mixology, the author has the classics down to a Tthe Martini, the Bloody Mary, plus the many variations (the Dirty Martini, the Virgin Mary). And then there are all the creative new elixirs the author brings to the table, like the Tasmanian Twister Cocktail or the Citron Sparkler. Illustrations show precisely what type of glass should be used for each drink. With dozens of recipes for garnishes, rims, infusions, and syrups; punches, gelatin shooters, hot drinks, and non-alcoholic beverages; and let's not forget an essential selection of hangover remedies, Ultimate Bar Book is nothing short of top-shelf.

This book is AMAZING. If it is not in this book ... then you probably don't really need it. It handles the basic set up of a family bar or any small bar for that matter. It gives recipes and glassware advice and even shows pictures! Being a recent graduate of a professional Bar Tender's Course I found it to be informative and useful for beginner to expert. I would buy again if I lost this one. I

encourage anyone interested in the field of mixology to have one in their library.

A great little book that I gave as a gift to my Son and Daughter-in-Law for their in-home bar they are in the process of building. Even though this has small print, they're young ~_~ and can handle it! It is organized both by drinks and by type of liquor, which they both appreciated. As she commented, 'now we can figure out what to do with all our left over' (I can't recall now what the booze was!) It also has suggestions on hangover cures, what to serve at your parties, etc. Chock full of useful info!!

This book makes a nice addition to any home bar. I like the outlines and the clear instructions on the art of cocktail making. This is a very informative book which no home bar should be without. Even if you're a wiz at making cocktails, this book gives you concise instructions on different twists to your favorite cocktails. Great book!

One of the best I have ever seen. Only wish the print was larger, but that would have made the book larger and I would imagine part of it's appeal is it's small size. Great for a party where people want to try different drinks with the same beverage. And if you really know what you are doing, you know mixing different alcoholic beverages is a good way to get commode hugging sick.

A very comprehensive book with tons of recipes for every alcohol type. I loved it so much that I bought one for an office white elephant and it was stolen multiple times! I also used it to help my friends find their signature drink for an upcoming wedding. The guy wanted ONLY whiskey drinks but the girl doesn't like whiskey. We managed to find a drink they both liked by testing out all the whiskey drinks!

My wife thought this was the perfect birthday present. She's just starting to get interested in mixed drinks and found this book helpful and informative. It's well laid out and not overwhelming as it may seem

Bought this book as a gift. The cover and binding are of good quality and make a nice presentation for a gift. There are an insane number of drink recipes in here, and they are well organized. Recommended for the aspiring mixologist in your life.

Great book for any bartender or just the average person who likes to make some good cocktails. Recipes are up to date and are all categorized by type of alcohol (which I find helpful at least). Sits on my bar and I use it often to make tasty beverages for guests.
