## Customer Reviews

I didn't need the score so on the one hand it was dumb for me to get this...BUT, this is a wonderful backpack sized score where you can easily see everything written out and altogether. It is a wonderful companion to study with. I have not used the CD yet but it looks great...I hope it is broken down into small parts but we'll see...if not I have a pause button. The only thing that could have made this a lot better would have been some analysis and or more writing. There is a 2 page preface with minor details, then there is a very short page per concerto talk about some of the musical elements. I had a PDF of the score so like I said I didn't really need it, but it is good and helpful nonetheless. I teach IB Music in China so this is great to have a small laid out copy that the kids and I can easily see and follow along with. I recommend it for someone who needs it for study,

or perfect for the fan or hobby learner of Bach.

Thanks
