Customer Reviews

I can't really say this is THE book to consult for hepatitis concerns even though the book does offer some solid information. I'm not a doctor though so I cannot verify everything but I kinda feel bad for the doctors. Claiming that doctors will never cure you... is pretty blunt. Given how serious hepatitis is and the price of this book, I still think it is worth a look.

Not worth your money. . Didn't really say anything that your doctor would not have already told you .
..

Hi Mary, I'm pleased that you used my daughter's name in your book, but you didn't ask her permission. Please contact the author of Curing Courtney since you used her name. It's the right thing to do. While I'm happy that you are drawing attention to alternative remedies for AIH, you didn't put in any specific things to do. Only generic information. If people want a specific guideline from someone who actually reversed AIH, read CURING COURTNEY, by Denise Otten. Thanks for your short but important book.

I have a real problem with either the author of this book or her publisher. Not only did they/she use someone's name in this book without their permission, as stated in another review here, they/she also is sending out junk pm's on other sites to pitch this book. I'm a longstanding member over at a site that is specifically aimed at the use of cannabis vaporizers for medicinal purposes. Rather than contacting the mods at that site to get permission to pitch this book to it's members, and then do so in the open forums as outlined in the site's rules, either the author or the publisher decided to do an end run around the policies and rules of that site and spam all of the members private messages (PM's) with the following:-----Take time to read this book untitled "Autoimmune Hepatitis" You're about to discover how to... Take control of your health, yes, there are people who managed to take total control of their lives by choosing to do research that could save lives, even when they are about to lose hope. If you think that it is time to seek for a second opinion and look for better ways to help you recover from Autoimmune Hepatitis or your autoimmune disease, this book could provide you everything that you need to know. This book would also serve as a perfect guide to ensure that you would never have to deal with this disease again. just go and click this Book

Link:<http://www..com/Autoimmune-Hepatitis-Yourself-Cookbook-autoimmune-ebook/dp/B00I0GPS5S/Enjoy!!----->I get enough junk mail and junk emails. I don't need the intrusiveness of junk PM's. Considering how this book is being marketed, I would look very suspiciously at any positive reviews that may show up here in regards to this book.

Good overview of aih. I would recommend a follow up publication with more in depth info and explanations of mechanisms of disease.

good info fo all autoimmune conditions
