Customer Reviews

Step-by-step examples of how to draw three popular characters including illustrations. Whatever you do, don't forget to bring up the YouTube links to see her in action as it was absolutely amazing (the woman is highly skilled and it shows!) Excellent book - 5 stars!

I don't recommend it. this book is small with very few topics with only 22 pages.Yo no lo recomiendo. Este libro es pequeno con muy pocos topicos y solo 22 paginas.

Was not detailed enough. But for what I paid, which was nothing, it was worth it to look over.

The author may not speak English as her native language because this is rife with grammatical errors and poor construction. Oddly, that almost works in the book's favor as it's pure tip after tip without lengthy story or opinion. +1The techniques themselves are well illustrated in each example where the author got right to work without revisiting tired ground that most books start with. For example, "the head looks like an oval, here's how to draw an oval". Ms. Susak drew Spiderman. +1The biggest draw, for me at any rate, are the videos. While another reviewer (fool) degraded the book for its lack of videos (!?!?!), I actually discovered this offering by way of her YouTube channel where each of these examples has a matching time-lapse video. They're awesome! +2

Because it does not have step by step or videos you could put this stuff in it to make it better
