## Customer Reviews

if you are able, just order the entire collection. Hide them and dish out one by one to your little reader. These things were like currency. Seriously my son would gladly complete lessons etc to get his hands on the latest book. He's been reading and re-reading the entire series for a couple of months now. I chose these as an alternative to magic treehouse, and have no regrets about it.

My daughters love this series, each one seems to be more exciting than the last! They eagerly await the next installment!

My son and I read this together. He loves the AIO books. Since this had a train in it it was one of his favorites. Of course he said Jessie James belongs in jail.

My has read all the books in this series. He completed this book within a couple of hours after his homework. Please keep the series coming and expand to levels for the middle school student.

Wow! My daughter read it in one day, and she went to look for the full story of Jesse Jackson, who is one of the main characters on the story.

I would recommend this book to anyone who loves adventure! It's fun and exciting!! Definitely a great read! I Love it!!

These books are great. My 10 year old daughter LOVES them. She can't put them down. She has re-read them quite a few times.

My son loves this book. we have the entire series and look forward to the next book coming out.
