My children are 7 and 9 and have been playing for just under a year. There are a few songs they can both play both sections of, and plenty to challenge them down the road. Coordinating playing two different parts at the same time has proved to be a bit more of a challenge for them at this level of experience. If buying for younger kids I would look for something where both parts play a similar rhythm. We'll look forward to trying duets again in another 6 months.

The melodies are good because they're simplified for beginner students. The duet parts are very boring though. If you're looking for a fun yet book, try the suzuki duets.

Bought this to play duets with my son. He's better than me, but these were easy enough for me to sight read and keep up. He indulges me and we are having a great time!

Not my favorite. Accompaniment line is too simple

To easy

Just what my student and I wanted. Perfect.

When I bought this book I didn't think it would be SO simple. Definitely for beginners and those who aren't good at reading complicated music.

I'm a beginner and this book totally fits my level. I has all the classics in an easier way. Duets are perfect to work with my teacher.
