Customer Reviews

I got this book for a class. It is used in conjunction with videos shown in the classroom. I like the vocabulary review section. It is old and outdated (filmed in the '90's I think), but the signs are still the same and it uses good learning techniques.

Make sure you need it. My professor says it is Way outdated and he only listed it because it was a requiremenr for him to do so.

Love it!!

I liked the east-to-understand layout and the clear line drawings. It also had useful mnemonic hints

to help you remember signs.

This book came in terrible condition. The book didn't make any sense. Luckily, I dropped the class because this was of no help.

thanks
