Teresa Mills is a mosaic artist and the author of 50 Mosaic Murals and Mosaic Basics.

I love this book! It is easy to use, carry around and the spiral ring binder makes it easy to lay open on a table for referencing when you're working on a project. I like the practical advice on safety and cleanliness. I like that it gives advice on setting up your work space. It's full of little tricks I've used over the years like cutting tile into a paper grocery bag so you don't have shards and slivers all over. It also reminds you not to brush off your work with your hands (I didn't start using a brush for this

until I slashed 3 fingers and spent a few hours in the ER!). This will be the book I tell my beginner level students to start with! It's good practical information.

I went to a Tomboy Tools tile making party. I loved making my first mosaic. I want to mosaic everything in site, and this is a perfect resource. The author starts at the beginning and explains what you need and why you need it. I ordered three books, but this is my favorite. It not only has getting started advice, it has beautiful color photos. Extremely pleased with this purchase.

no problems, all as expected

In the beginning of the book there are lots of step by step instructions with pictures on how to create your own masterpiece, and near the end of the book there are alot of pictures and ideas for more complicated projects. This book is a perfect fit for any skill level, and the pictures inside are enjoyable to peruse.

The Mosaic Artist's Bible of Techniques: The Go-To Source for Homes and Gardens: Complete, In-Depth Instructions and Creative Designs This is a must-have reference book for anyone interested in mosaic art. The projects are fully explained with pictures to help guide you if this is your first attempt, or if you need a refresher. I highly recommend it.
