The Tales Of Beedle The Bard [daisy]: Structured Audio CD

Synopsis

The Tales of Beedle the Bard, a Wizarding classic, first came to Muggle readers' attention in the book known as Harry Potter and the Deathly Hallows. Now, thanks to Hermione Granger's new translation from the ancient runes, we present this stunning edition with an introduction, notes, and illustrations by J. K. Rowling, and extensive commentary by Albus Dumbledore. Never before have Muggles been privy to these richly imaginative tales: "The Wizard and the Hopping Pot," "The Fountain of Fair Fortune," "The Warlock's Hairy Heart," "Babbitty Rabbitty and Her Cackling Stump," and of course "The Tale of the Three Brothers." But not only are they the equal of fairy tales we now know and love, reading them gives new insight into the world of Harry Potter. This purchase also represents another very important form of giving: From every sale of this book, Scholastic will give its net proceeds to Lumos, an international children's charity founded in 2005 by J. K. Rowling. Lumos is dedicated to ending the institutionalization of children, a harmful practice that affects the lives of up to eight million disadvantaged children around the world who live in institutions and orphanages, many placed there as a result of poverty, disability, disease, discrimination and conflict; very few are orphans. Lumos works to reunite children with their families, promote family-based care alternatives, and help authorities to reform their systems and close down institutions and orphanages. www.wearelumos.org --This text refers to the Hardcover edition.

Customer Reviews

The Tales of Beedle the Bard, Collector's Edition Offered Exclusively by (Available in Limited

Quantities) In December 2007, J.K. Rowling unveiled *The Tales of Beedle the Bard*, a very special book of five fairy tales illustrated by the bard herself, embellished with silver ornaments and mounted moonstones. I was fortunate to come into possession of one of the original copies, and it was our privilege to share images and reviews of this incredible artifact. Now J.K. Rowling is giving millions of Harry Potter fans worldwide cause for celebration with a new edition of *The Tales of Beedle the Bard* (available December 4, 2008) and is thrilled to exclusively offer a luxuriously packaged Collector's Edition designed to evoke the spirit of the handcrafted original. Tucked in its own case disguised as a wizarding textbook found in the Hogwarts library, the Collector's Edition includes an exclusive reproduction of J.K. Rowling's handwritten introduction, as well as 10 additional illustrations not found in the Standard Edition or the original. Opening the case reveals a velvet bag embroidered with J.K. Rowling's signature, in which sits the piece de resistance: your very own copy of *The Tales of Beedle the Bard*, complete with metal skull, corners, and clasp; replica gemstones; and emerald ribbon. As a special gift for fans, the Collector's edition also includes a set of 10 ready-for-framing prints of J.K. Rowling's illustrations, enclosed in a velvet-lined pocket in the lid of the outer case. Offering the trademark wit and imagination familiar to Rowling's legions of readers--as well as Aesop's wisdom and the occasional darkness of the Brothers Grimm--each of these five tales reveals a lesson befitting children and parents alike: the strength gained with a trusted friendship, the redemptive power of love, and the true magic that exists in the hearts of all of us. Rowling's new introduction also comments on the personal lessons she has taken from the Tales, noting that the characters in Beedle's collection "take their fates into their own hands, rather than taking a prolonged nap or waiting for someone to return a lost shoe," and "that magic causes as much trouble as it cures." But the true jewel of this new edition is the enlightening and comprehensive commentary (including extensive footnotes!) by Professor Albus Percival Wulfric Brian Dumbledore, who brings his unique wizard's-eye perspective to the collection. Discovered "among the many papers which Dumbledore left in his will to the Hogwarts Archives," the venerable wizard's ruminations on the Tales allow today's readers to place them in the context of 16th century Muggle society, even allowing that "Beedle was somewhat out of step with his times in preaching a message of brotherly love for Muggles" during the era of witch hunts that would eventually drive the wizarding community into self-imposed exile. In fact, versions of the same stories told in wizarding households would shock many for their uncharitable treatment of their Muggle characters. Professor Dumbledore also includes fascinating historical backstory, including tidbits such as the history and pursuit of magic wands, a brief comment on the Dark Arts and its practitioners, and the struggles with censorship that eventually led "a certain Beatrix Bloxam" to

cleanse the Tales of "much of the darker themes that she found distasteful," forever altering the meaning of the stories for their Muggle audience. Dumbledore also allows us a glimpse of his personal relationship to the Tales, remarking that it was through "Babbity Rabbity and Her Cackling Stump" that "many of us [wizards] first discovered that magic could not bring back the dead." Both a wise and delightful addition to the Harry Potter canon, this new translation of The Tales of Beedle the Bard is all that fans could hope for and more--and an essential volume for the libraries of Muggles, wizards, and witches, both young and old.

The Children's Voice Campaign The Tales of Beedle the Bard is published by The Children's High Level Group (CHLG), registered charity number 1112575, a charity co-founded in 2005 by J.K. Rowling and Emma Nicholson MEP to make life better for vulnerable children. All net proceeds from the sale will be donated to The Children's Voice campaign. The Children's Voice campaign is run by CHLG. It campaigns for child rights across Europe, particularly in Eastern Europe where over a million children and teenagers are growing up in institutions, often in unacceptable conditions. In most cases they are without adequate human or emotional contact and stimulation, while many only just survive without life's basics such as adequate shelter and food. CHLG's Children's Voice campaign helps around a quarter of a million children each year through education activities; outreach work in institutions; and a dedicated telephone and email help line.

Also Available: the Standard Edition The Tales of Beedle the Bard, Standard Edition contains the five fairy tales, a new introduction by J.K. Rowling, illustrations reproduced from the original handcrafted book, and commentary on each of the tales from Professor Albus Dumbledore.

Collector's Edition Product Features:

- All five fairy tales from the original The Tales of Beedle the Bard
- Outer case disguised as a wizarding textbook from the Hogwarts library
- 10 ready-for-framing prints of J.K. Rowling's illustrations
- Exclusive reproduction of J.K. Rowling's handwritten introduction
- 10 new illustrations by J.K. Rowling not included in the Standard Edition or the original handcrafted edition
- Velvet bag embroidered with J.K. Rowling's signature
- Metal skull, corners, and clasp
- Replica gemstones
- Emerald ribbon

[\[PDF\]](#) [Reviews the Original Handcrafted Edition of The Tales of Beedle the Bard](#) The following is 's original December 2007 review. Please note that the review and images below pertain to the handmade book purchased at auction: There is no easy way to define the experience of seeing,

holding, or reading J.K. Rowling's *The Tales of Beedle the Bard*, so let's just start with one word: "Whoa." The very fact of its existence (an artifact pulled straight out of a novel) is magical, not to mention the facts that only seven copies exist in all the world and each of the never-before-told tales is handwritten and illustrated by J.K. Rowling herself (and it's quite clear from the first few pages that she has some skill as an artist). Rowling's handwriting is like the familiar scrawl of a favorite aunt--it's not hard to read, but it does require attention--allowing you to take it slow and savor the mystery of each next word. So how do you review one of the most remarkable tomes you've ever had the pleasure of opening? You just turn each page and allow yourself to be swept away by each story. You soak up the simple tales that read like Aesop's fables and echo the themes of the series; you follow every dip and curve of Rowling's handwriting and revel in every detail that makes the book unique--a slight darkening of a letter here, a place where the writing nearly runs off the page there. You take all that and you try and bring it to life, knowing that you will never be able to do it justice. With that, let's dig in and begin at the beginning, shall we? --Daphne Durham

Magic, Mystery, and Mayhem: A Conversation with J.K. Rowling "I am an extraordinarily lucky person, doing what I love best in the world. I'm sure that I will always be a writer. It was wonderful enough just to be published. The greatest reward is the enthusiasm of the readers." --J.K. Rowling Find out more about Harry's creator in our exclusive interview with J.K. Rowling.

Rediscover the Complete Harry Potter Series

Harry Potter and the Sorcerer's Stone Hardcover Paperback Harry Potter and the Chamber of Secrets Hardcover Paperback Harry Potter and the Prisoner of Azkaban Hardcover Paperback Harry Potter and the Goblet of Fire Hardcover Paperback Harry Potter and the Order of the Phoenix Hardcover Paperback Harry Potter and the Half-Blood Prince Hardcover Paperback Harry Potter and the Deathly Hallows Hardcover Deluxe

Hardcover Why We Love Harry: Our Favorite Moments from the Series There are plenty of reasons to love Rowling's wildly popular series--no doubt you have several dozen of your own. Our list features favorite moments, characters, and artifacts from the first five books. Keep in mind that this list is by no means exhaustive (what we love about Harry could fill ten books!) and does not include any of the spectacular revelatory moments that would spoil the books for those (few) who have not read them. Enjoy.

Harry Potter and the Sorcerer's Stone * Harry's first trip to the zoo with the Dursleys, when a boa constrictor winks at him. * When the Dursleys' house is suddenly besieged by letters for Harry from Hogwarts. Readers learn how much the Dursleys have been keeping from Harry. Rowling does a wonderful job in displaying the lengths to which Uncle Vernon will go to deny that magic exists. * Harry's first visit to Diagon Alley with Hagrid. Full of curiosities and rich with magic and marvel, Harry's first trip includes a trip to Gringotts and Ollivanders, where Harry gets his wand (holly and phoenix feather) and discovers yet another connection to He-Who-Must-Not-Be-Named. This moment is the reader's first full introduction to Rowling's world of witchcraft and wizards. * Harry's experience with the Sorting Hat.

Harry Potter and the Chamber of Secrets * The de-gnoming of the Weasleys' garden. Harry discovers that even wizards have chores--gnomes must be grabbed (ignoring angry protests "Gerroff me! Gerroff me!"), swung about (to make them too dizzy to come back), and tossed out of the garden--this delightful scene highlights Rowling's clever and witty genius. * Harry's first experience with a Howler, sent to Ron by his mother. * The Dueling Club battle between Harry and Malfoy. Gilderoy Lockhart starts the Dueling Club to help students practice spells on each other, but he is not prepared for the intensity of the animosity between Harry and Draco. Since they are still young, their minibattle is innocent enough, including tickling and dancing charms.

Harry Potter and the Prisoner of Azkaban * Ron's attempt to use a telephone to call Harry at the Dursleys'. * Harry's first encounter with a Dementor on the train (and just about any other encounter with Dementors). Harry's brush with the Dementors is terrifying and prepares Potter fans for a darker, scarier book. * Harry, Ron, and Hermione's behavior in Professor Trelawney's Divination class. Some of the best moments in Rowling's books occur when she reminds us that the wizards-in-training at Hogwarts are, after all, just children. Clearly, even at a school of witchcraft and wizardry, classes can be boring and seem pointless to children. * The Boggart lesson in Professor Lupin's classroom. * Harry, Ron, and Hermione's knock-down confrontation with Snape.

Harry Potter and the Goblet of Fire * Hermione's disgust at the reception for the veela (Bulgarian National Team Mascots) at the Quidditch World Cup. Rowling's fourth book addresses issues about growing up--the dynamic between the boys and girls at Hogwarts starts to change. Nowhere is this more plain than the

hilarious scene in which magical cheerleaders nearly convince Harry and Ron to jump from the stands to impress them. * Viktor Krum's crush on Hermione--and Ron's objection to it. * Malfoy's "Potter Stinks" badge. * Hermione's creation of S.P.E.W., the intolerant bigotry of the Death Eaters, and the danger of the Triwizard Tournament. Add in the changing dynamics between girls and boys at Hogwarts, and suddenly Rowling's fourth book has a weight and seriousness not as present in early books in the series. Candy and tickle spells are left behind as the students tackle darker, more serious issues and take on larger responsibilities, including the knowledge of illegal curses.

Harry Potter and the Order of the Phoenix * Harry's outburst to his friends at No. 12 Grimmauld Place. A combination of frustration over being kept in the dark and fear that he will be expelled fuels much of Harry's anger, and it all comes out at once, directly aimed at Ron and Hermione. Rowling perfectly portrays Harry's frustration at being too old to shirk responsibility, but too young to be accepted as part of the fight that he knows is coming. * Harry's detention with Professor Umbridge. Rowling shows her darker side, leading readers to believe that Hogwarts is no longer a safe haven for young wizards. Dolores represents a bureaucratic tyrant capable of real evil, and Harry is forced to endure their private battle of wills alone. * Harry and Cho's painfully awkward interactions. Rowling clearly remembers what it was like to be a teenager. * Harry's Occlumency lessons with Snape. * Dumbledore's confession to Harry.

Harry Potter and the Half-Blood Prince * The introduction of the Horcrux. * Molly Weasley asking Arthur Weasley about his "dearest ambition." "Rowling has always been great at revealing little intriguing bits about her characters at a time, and Arthur's answer "to find out how airplanes stay up" reminds us about his obsession with Muggles. * Harry's private lessons with Dumbledore, and more time spent with the fascinating and dangerous pensieve, arguably one of Rowling's most ingenious inventions. * Fred and George Weasley's Joke Shop, and the slogan: "Why Are You Worrying About You-Know-Who? You Should Be Worrying About U-NO-POO--the Constipation Sensation That's Gripping the Nation!" * Luna's Quidditch commentary. Rowling created scores of Luna Lovegood fans with hilarious and bizarre commentary from the most unlikely Quidditch commentator. * The effects of Felix Felicis.

Harry Potter and the Deathly Hallows * The revelation of Snape's nature (especially Snape's Patronus and the emotion behind it). It serves as a reminder that it is love (requited or not) in all its forms that drives many of our actions. * Harry asking if the conversation with Dumbledore was real or happening in his head, and Dumbledore responding "Of course it is happening inside your head, Harry, but why on earth should that mean that it is not real?" * Ron gifting Harry a book on dating witches, a subtle reminder that they are still teens, after all.

Grade 4 Up
Muggles grow up with Grimm's fairy tales; wizarding children grow up with Tales of Beedle the Bard. The Bard's book is a collection of five tales, bequeathed to Hermione Granger by Professor Dumbledore. The passing of the book into her hands was intended to be both "entertaining and instructive." As in all good mysteries, information contained within its pages provided Hermione with clues essential to helping Harry in the series' last installment. In particular, "The Tale of Three Brothers" describes how three magical items appeared after siblings cleverly cheat death. It is these items that play a pivotal role in Harry Potter and the Deathly Hallows (Scholastic, 2007). Those hoping to re-create the hours of pleasure spent curled up with a J.K. Rowling book may be disappointed at the brevity of this title, but they will undoubtedly enjoy the tales and Dumbledore's often lengthy, cynical-but-wise commentary on each one.
Robyn Gioia, Bolles School, Ponte Vedra, FL Copyright © Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. --This text refers to the Hardcover edition.

I love Harry Potter and was super excited to get this book. It is so realistic and makes me feel like I am a witch attending Hogwarts. I love the back story where this is what witches and wizards grew up being read by their parents as bedtime stories. It is pretty awesome.

The stories in this book are simply delightful. It contains, of course The Tale of the Three Brothers (from The Deathly Hallows) and other four short stories that anyone is sure to love. Plus, proceeds go to charity.

I would honestly recommend reading this book at the point in the 7th book when Hermione gets the copy if this isn't your first time reading the series. It actually adds a lot to think about while their searching on their own, and makes you appreciate why she was so insistent that they couldn't be real and gives you a sense of depth to the wizarding world that we (as muggles I suppose) would never have had. I can tell J. K. Rowling put a lot of feeling into even these side stories to give them a feel of authenticity and antiquity within her world (a very nice touch).

This could have been a cheap novelty item to make a few more million dollars (or pounds) from Ms. Rowling's rabid fan base. However, it was pleasantly surprising to see that this wasn't the case.

Presented here are a handful of fables from the wizarding world. Saying too much about any of these short stories will give away almost everything, but this brief read is a must have for any Potter fans who are hungry for more from the wizarding world. This collection is just a taste but it's worth savoring for readers who are fans of either the books or the films.

I saw this book at Target for \$13, but didn't want to spend that much at the time. Lo and behold, I snagged it used on for \$4. It was listed as used in good condition, which it was, with the exception of a stain on a few of the pages. Not a big deal, but as a suggestion: don't eat cheetos while reading a book. Just don't. I would recommend this book for any Harry Potter fan. Non-HP fans would enjoy it too, but the little nods to the series and Dumbledore's notes are what make the book, I think. I loved the stories: short, but with a point. I loved Tale of the Three Brothers the best just because of the movie, but The Fountain of Fair Fortune is a close second. The Warlock's Hairy Heart was creepy, but with a very good message. Can't wait to read them to my kids one day.

Very descriptive and visual although, at times, it's hard to remember all the "unique and new names" of the characters as they're so uncommon. But, it's a fun read.

It's wonderful to find out the backgrounds on all of these characters and some of the wonderful little stories and details about things like wands. I'm looking forward to the next Rowling books

I was really surprised that I enjoyed this 'real' piece of an alternate reality. The fables are wonderfully told and it serves as a great book of tales for anyone.
