Johanna Basford 2016-2017 16-Month Coloring Weekly Planner Calendar

Synopsis

Johanna Basford's amazing 2013 bestseller Secret Garden fueled the adult coloring craze, selling an unprecedented number of copies. It was born out of the self-described "ink evangelist's" passion for the hand-drawn line and its inherent sense of energy, which is impossible to duplicate via computer-generated graphics. Her initial bestseller was quickly followed by two more as her fan base and the coloring phenomenon grew. Along the way she's lent her art to such corporate clients as Starbucks, Absolut Vodka, and Chipotle. No matter where it's encountered, her art evokes fancy in the viewer, inviting closer inspection of its hidden intricacies. This calendar provides more than a place to jot reminders. It also offers a creative outlet as users color images each week from Johanna Basford, best-selling author of Secret Garden, Enchanted Forest, and Lost Ocean.

I love it so much! I have already finished a few pages so the planner will be ready to use in September. I use Staedtler Ergo-soft Colored Pencils and Staedtler Triplus Fineliners 0.3mm.

I read some of the reviews that portray the artwork in this book as small or tiny, but I did not find it so. Everyone has different vision so some people may have some issues with the sizing of some pictures. I have vision challenges but I have no problem seeing most of the drawings in this collection. The editors choose a variety of drawings from her most popular books to satisfy a wide audience. The book includes calendars from 2016 and 2018. There is a drawing per week beginning with Aug 29, 2016. Some of the smaller drawings may be suitable for gel pens or very

sharp pencils. The weight of the paper should allow for watercolor pencils if desired.

Received today and finished first page using Marco Renoir and gel...love this little planner....yes the print is smaller because it measure's 7x9 but has plenty of room on the date side for jotting down appointments, birthdays etc...and you can throw it in your purse and color as you go.

Love it! Different pictures for each page, it does state that the pictures are from her other books (secret garden ect..). I would suggest using pencils, pens are leaving marks on the next page, but there are just dates on the next pages anyway. Great small detail pictures!

I'm really happy with this planner! I love the format of the planner. I like that it is simple (just the days of the week) and that equal amount of place is given for each day of the week because some planners give less place for the weekend. I can understand why some people wouldn't like it because of how condensed the coloring portions are, but it's not something that bothers me. I love this planner because it's the exact format I prefer for writing out my plans/to-do lists and it has the added bonus of beautiful pictures to color in.

I really love this planner. Johanna Basford's work is amazing, and the planner includes images from all her books. Compared to the books, images are smaller, so make sure you have the right tools to color some tiny details. I only used markers, and it worked beautifully. Due to the size of the images, you will not be able to work much on shades and blending, so I would say that you shouldn't be too focused on the artistic side of this: just enjoy the beauty and fun of a planner where you poured some of your creativity in, but don't take it as the best way to create art - for that purpose, books work better. I highly recommend it: you will enjoy coloring it, and will also enjoy keeping it on your desk, as the beauty and cheerfulness of it will bright up your day!

I love the pictures and the layout is nice. However the cover is not strong enough to hold up for 16 months at all! I've been using it for about 3 months and I can see I'm going to need to replace it soon because its starting to tear along already since the cover is only paper. Would have been much better if the cover was plastic.

This planner is so cute! The drawings are so beautiful, and unlike some of the other reviews noted I don't find them too small for coloring. The space for writing is rather small though. If you write small

enough and have only a few major events instead of several daily tasks to write down, I would highly recommend it. It's so nice to get to see the entire layout of the week on one page as well. I'm looking forward to using this in school and doodling during class to help me maintain my focus!
