Complicated Hearts (Book 2 Of The Complicated Hearts Duet.)

Synopsis

Things are going to get...complicated. This is Book Two (the final book) of the Complicated Hearts Duet. Book One must be read first. Warning: This book is not for everyone. These characters are flawed and the situation is intense and frustrating. Emotions – all of them – run high. If you're looking for perfect characters and a perfect story...this book isn't for you. Trigger Warning: This story is strange and unconventional. It's everything you hate. That's the only warning I can offer you.

Customer Reviews

I don't even know where to start with this review. You need to read book one first as this is a continuation of that story. This picks up as book one ends and the emotions are running high between Breslin, Asher and Landon. They all have some decisions to make and it's not going to be easy for anyone, especially when there's no guarantee of getting what they want. I was quite vocal after the last book about how I felt about Breslin. I didn't hate her, I just didn't like her but in this book she definitely won me over. I connected with her straightaway and ended up loving her. She's confused, angry and hurting and I couldn't help but feel for her. Asher and Landon I liked equally. I've always loved these two boys and the connection they have. They seem to compliment each

other, they both want the same thing and I loved the way they try to go about getting that. Landon is my man though. He really shows the man he is in this book and I spent most of this book on team Landon. I know this is a vague review but it's one of those books best going into blind. The relationships and friendships between the characters are very emotionally charged and the chemistry between them will have you fanning yourself (I'm not even kidding, this should come with some sort of super sexy you're-gonna-want-to-jump-your-hubby-while-reading-it kinda warning it's that hot!). Ashley Jade has outdone herself with this duet. It's got everything I want in a story. Characters that you will love and loathe at the same time but the love will win in the end, lies, betrayal, a deep love, some seriously sexy scenes and emotions on top of emotions. A brilliant angsty duet that I will definitely be recommending.

There should really be a way you can give a book 10 stars if it deserves it, and I feel with all my heart that this book is one of them!! The feelings I had while reading this book were all over the place!! From the very beginning my eyes were tearing up and then I would laugh at something one of the characters I have hopelessly fallen in love with would say. I loved the sarcasm and the angst and I even loved the "ugly cry" I couldn't stop, even if I wanted to!! Each character had something about them I loved- Kit: who reminded me of my best friend that has pulled me back from the ledge more than once. Asher: who holds a special place in my heart. Breslin: who frustrated me to no end, but also made my heart hurt and made me wish she was real so I could give her a big hug. Preston: who was so damaged he couldn't take care of himself, which made me wish I could hug him too. Landon: who's love of music made me wish I could hear him play and sing. The way they all loved each other was so beautiful and tragic and breathtaking, it made me wish I had these people in my life. The author poured her heart out in these two books and it really shows!! I, for one, am thankful she was brave enough to tell their story because I feel blessed to have read these two books!!! My only regret is that this is it, because I could read about these characters in many more books!! If you loved CH1 then I PROMISE you that you will love CH2 even more!! So I highly recommend this book and I also recommend you have a box of tissues close by and the sex is hot as hell, so be mindful where you decide to read this, because it could get quite uncomfortable for you when you are squirming in your seat!! Enjoy!! (I sure did!!!)

ALL THE STARS!! honestly don't even know where to start. This book. SO much more than I was expecting, IN THE BEST WAY! In one sentence: D*** THIS WOMAN CAN WRITE A BOOK! This duet by Ashley Jade has exceeded all expectations. H***, she's exceeded BEYOND expectations. I

didn't expect to love these characters as much as I did. As many times as I lost my breath, I'm shocked I still have enough oxygen left to breathe. It was THAT captivating. The PASSION, the STRUGGLE, the FRUSTRATION, the LOVE, just EVERYTHING these three characters went through will live through every person who reads this book. Or in other words, who went through it all right along with them. Basically, I didn't know what I was missing until Ashley Jade brought Landon, Asher, and Breslin into my life. And now I can't imagine not having ever met them. While this duet isn't for everyone, I challenge you to pick it up and give it a try. I'm glad I did... So thank you for that Ashely.

I finished reading this second book over two days ago, I have been so caught up in my own emotions over this book that I have been at a loss for words. This story was so much anticipated and it never let me down. Ashley, to me, is one of the best authors to tell a story with enough emotional connection between the characters that you truly feel their angst and pain. I am so overwhelmed by the storylines that I cannot pick up another book right now, because I don't want to lose these feelings. Your storytelling is magnificently done! Congratulations, Ashley! I Love you, Babe!!
You have a fan for life. I'm going back to read Complicated Hearts 1 and follow up with the Complicated Hearts 2, again. Yes, these books are just that darn good!!

This is book 2 in the Complicated Hearts Duet and it did not disappoint!! I loved book 2 even more than the first. I love how everything came together with these characters. It made me laugh and almost cry. It was heartbreaking at times and I could not put it down until I finished it. This is real life! This book and these characters are everything! These will forever be 2 of my favorite books. I only wish there was more!

Just finished Complicated Hearts 2 and all I can say is wow. I love the storyline and darn it if it didn't pull on my heartstrings. This story (part one and two) shows that love conquers all. Lies, bigotry, hate, even blackmail, haha. Great story with a great ending.
