Su Doku For Dummies

Synopsis

Su Doku For Dummies offers more puzzles than any other book available. This pocket-sized guide to the biggest craze for Summer 2005 features: * Easy to follow illustrated instructions * Guidance on how to play the game and different strategies to tackle the puzzles * 240 addictive new puzzles from basic to fiendish This guide is perfect for newcomers to Su Doku as well as experienced Su Doku players looking to improve their game and addicts who just can't get enough new puzzles!!! Su Doku (or Sudoku) has been dubbed the Rubik's Cube of the 21st century, it's a cryptic and highly addictive puzzle that involves inserting numbers in a 9x9 grid and making sure that every row and every column and every 3x3 box within the bigger grid contains all the digits from one to nine. All it takes is the ability to identify the numerals 1-9, a sense for logic, a methodical cast of mind and a large measure of application to boot. You can get better and quicker, if you put your mind to it. And there is no predicting who will excel: you can be a disaster at maths and a whiz at Su Doku!

Discover how to: Understand the game that's gripping the globe Become a master of Su Doku strategy Develop your own solving strategies Solve puzzles at all ability levels

This is the best book I have seen for not only puzzle instructions but also strategies. It's wonderful and gives the beginner and not so beginner a fair and excellent advantage for Su Doku solving.

Among the very first SUDOKU books, but it remains the best. My husband keeps a stack of this specific book on hand so he can immediately start over once he completes the book. He has worked many other Sudoku books, but he always returns to this one.

Perfect book for my husband. He really is studying this game. I purchased this book for him and he enjoys the book!

Mixed reactions to the book. Yes, I'm a dummy when it comes to sudoku. But, I'm not a total idiot (at least, I don't think so). But, the problem-solving instructions are barely understandable. At the very least, they are not sufficiently detailed to lead me to recommend the book. With all that said, I'm going to try some more "visual" (as distinguished from "verbal" media). Will sign up for video and on-line visual instruction.

Book was in excellent condition. I had finished book 3 before I got book 1 and 2. I have gone thru 32 of book 1. They are as expected.

Always love to play Su Doku.

Fun book for the trailer.

Helpful book for someone just learning Suduko
