Easy Nights

Synopsis

The Boudreaux Series - Sexy. Intriguing. Easy. No one said change was easy.... Savannah Boudreaux knows what it is to hurt. To bleed. To be afraid that the man she's promised to be true to until "death do us part" might in fact separate them far sooner than anyone had ever anticipated. But Van also knows what it is to survive. To move on. To live life to the fullest. With five brothers and sisters and a loving mother as her constant source of strength during the pain and the healing, Van realizes there is little else she needs. But some things never change.... Benjamin Preston sat on the sidelines of the Boudreaux family for years, in love with a woman he couldn't have. As the best friend of the Boudreaux brothers since childhood, Ben has seen both tragedies and joys in the family. And as a former MMA fighter and Krav Maga expert, Ben's used to fighting for what he wants - and winning. His hands were tied when Savannah married her college sweetheart not long after graduation, but now two years have passed since Ben found Savannah broken in her own home. Sometimes what you need most has been right in front of you the whole time.... Van's convinced that happiness isn't in the cards for her, no matter how right it feels to be in Ben's strong arms - and his bed. Ben is determined to win her heart and fight for her trust. He's promised to protect her, to be her friend. But more than anything, he wants to finally make her his, and this is one fight he's not willing to lose.

Best Sellers Rank: #125 in Books > Audible Audiobooks > Romance > Contemporary #372 in Books > Literature & Fiction > Genre Fiction > Family Saga #1436 in Books > Audible Audiobooks > Fiction & Literature

Customer Reviews

This was a fantastic conclusion to the Boudreaux series of books with Savannah finally finding true

love with Ben after having a crush on him her whole life. He is best friends with her brothers so they were always together growing up but he was older than her and he left her to go to college with her brothers. She ended up graduating from college a few years later and marrying Lance. After they were married he became an abusive monster ruining her life until one night he almost killed her then Ben, and her brothers save her life. Her marriage lasted six years and so it took two years to repair the damage that he had done to her physically and mentally. Through a lot of hard work and therapy sessions with Lance rotting in jail she was back to a newer better version of herself. Ben was by her side the whole time biding his time as her friend until he could not stand it any more and told her he could not be just her friend anymore when he wanted to be so much more to her. After the shock wore off she gladly agreed she wanted the same thing. Their life could not be happier until unfortunate and unexplained things started finding happen to Ben and her. How she solved what was causing everything made for a suspenseful story with their deceased father mentoring Savannah on what to do from the grave in her dreams. How she changed into a kick butt woman from her previous self was an amazing transformation. Ben and Van's love story was so romantic because he saved her and proved to her she could love someone again and deserved to be loved as well. I loved how they all got their happily ever after and became a big loving family with lots of their own children and their father watching over them and waiting to be reunited with his one true love, their mom. He was a very patient man and he was willing to wait a long time. I highly recommend this series if you enjoy reading about suspense, hot romance and supernatural unexplainable happenings at times. The Boudreaux series was an amazing set of novels that I highly recommend.

Well, Book 6 was definitely worth the wait!! The Seattle series was always my favorite, but the Boudreaux series, is tied with it LOLReading this was bittersweet... so anxious for Ben and Savannah's story, yet hating to see the Boudreaux series end .You have such a descriptive way of using your words that i feel what you are writing. You always manage to include humor even in an intense situation. Ben and Savannah, so perfect together. I want to write Ben is so sexy and I sit here and think, "I never met the man", yet in my heart I know he is because of the use of your words. He certainly is every woman dream! Not just the body and sex, but the kindness, the honesty and the deep love, not only for Savannah, but for his mom and all the Boudreaux family. Savannah, such a strong woman, I like that have have strong women in your stories, and still have them so caring.The ending had me in tears - tears of happiness and sadness. You see, my first husband passed away, and yet there are times I know he is with me and while your book is fiction, it was like

I wanted to reach out to her. What can I say, I just loved everything about this book, except I want more LOL I will miss this family. You amaze me, I'm never bored reading your books, I feel like I become part of the story and that I'm sitting on the sidelines through the whole book. Imagination ... thank heavens yours is great and your writing so descriptive. Thank you for another great series and for ending this series with a wonderful story.

MAY CONTAIN SPOILERS - I think I'm let down because I've waited forever for Savannah's book & it is disturbing to say the least. Every which way a man could belittle & humiliate & physically harm his woman - that is what Lance did to Savannah, leaving permanent scars on her body & her soul. It's been two years & as she celebrates with her family & Ben she starts to love the woman she's become. When Ben is frustrated at being friend-zoned, Van quickly steps in to say that she never wanted him as a friend only in the first place & it's on! It is easy because Van has grown so much in these two years. Physically she gives herself right over to Ben. There are a few good parts of the story, like when Van accidentally spills his water at dinner & has a panic attack like a two year old who is going to get spanked. Very sad. I also enjoyed Savannah owning her new independence with a tattoo - Still I Rise. I love it! Their love affair is so easy after loving each other all these years so of course for drama we have to have the men of her past come back to threaten her. I did love how she didn't curl up into a corner & cry this time - she fought, all of her own, with everything she had.

“People fit differently in our lives at different times. You weren't meant to be with him until now, because you weren't the person you are until now.” I was one of the eager readers that wanted this book right after Kate and Eli Easy Love. I wanted it because Van and Ben caught my attention. Their chemistry started early on, it just wasn't their time yet. Actually, pieces of their story has been written throughout series, you have to pay close attention. Easy Nights was a long awaited story that was worth the wait. Savannah and Ben needed this time. They needed the time to heal. They needed this time to grow. They needed this time to trust. Most of all, Savannah needed this time for herself, and when you read this amazing book you will see why her book needed to be last. I loved this book and finished it in two sittings because saying goodbye to a group of characters that have been part of your reading journey is hard. This was such an amazing family, it makes you wish you were truly one of them. If you are a fan of Kristen Proby, you will love this book too. Why? Because the Queen of Swoon has once again hit the nail on the head.
