## Customer Reviews

This book is really gorgeous on the outside and even more so on the inside. It has in depth descriptions of the different types of lures and their parts and gives great incite on how to date such lures and parts. The print is is large and bold and the color pictures are stunningly printed on heavy bond glossy paper. There are pictures throughout the book of just about every lure imaginable. I promise you will not be disappointed.

Does not cover as many lures or years that it appears to say it does

Great book with awesome details as well as history on the bait co. I will be buying the newer edition. This book is best for serious collectors that have pre-WWII lures. The author did an excellent job!!

I just purchased a Large collection of antique and vintage fishing lures. I have fished all of my life, mostly with my Father back starting in the 1930's on our farm in Owasso OK. I had to have this book.

Great all the way round,, and book in good shape. Thanks

Very fun to look at if you are a fisherman, kind of neat looking at all the classic lures.

Good pictures and information.

This book provides lots of pictures. I enjoy it and have it as apart of my fishing books. I can see how lures have changed thru time and others good designs remain almost with no change.
