Customer Reviews

Roger Priddy's passion for educating children through fun, informative and engaging books has led him to create some of publishing's most enduring and successful non-fiction early learning books. Roger lives in London and has three children, who have been the inspiration behind many of his best publishing ideas.

Really not what I had expected. I thought that there would be facts about the trains in the book but there isn't ! This would be for a child that just likes to look at pictures of trains.

My two year old is obsessed with trains. He is obsessed with "My Big....Books". This hits the spot and is a great way to talk about different colors and types of trains.

This book is very short and not at all what we were hoping. It talks about uncommon trains that are very unlike the trains kids are interested in.

The children love looking all of the different trains and comment on the different types and colors of trains.

Cute, interesting and engaging little book that keeps the Grandkids entertained. Nice way to keep them happy and exercise their brains. A good way to encourage Imagination and learn new things in the process...that's is always a good thing!

This was bigger and even more colorful than I expected. The little boy who was presented with this really liked it!

This book and the Big Truck book are my toddler's preschool favorites so I ordered one of each so that when it is time to go home, I don't have to fight him to make him leave. All of the toddlers in his classroom fight over this one, so I'd say it's a good book.

My kid loves trains. Need I say more? lol pages are durable, colors are vibrant, names all the trains which helped me a ton. He totally loves this book.
