Customer Reviews

Self defense is a something we all need to learn like swimming, but is not always something a person gets a chance to learn. Be your own hero and save yourself! There is always a chance that I can be attacked. This book shows me exactly what to consider down to my position at the moment of attack. There are 5 positions my hand alone can become a weapon. Also, like Sam Furry urges us to prepare for dangerous situations and monitor our surroundings. This is truly an empowering read.

This book is good if you want to learn self defense. I knew some of the things listed in here from another book written by who I believe is the same author. This a great read and I highly recommend you buy this book if you want to maximize your knowledge on self defense

Great book for beginners . I really understood a lot from this book. Good thing the author really knows what he is talking about in this book.

This book has a lot of information and techniques relating to self defense. If this is a subject you are interested in, I would highly recommend this.

Sold book. Good information. Buy the bundle and save money over purchasing them individually.
