The Button Blanket: A Novel

Synopsis

When Amber Asmundsen climbed into the stranger's car on the mountain road outside the church camp, she shouted down the warning voice in her head. She only had room for the pain of not belonging. She did not belong in camp. She did not belong in her loving adopted family. She definitely did not belong in the safe suburban world she had entered when a hit and run driver killed her unknown Indian birthmom. Now in four short, terrifying minutes, she was going to find out she did not belong in this stranger's car. Amber, an adopted teen, tries to connect with the native American heritage of her birthmother. This fictional coming-of-age story can be read by moms and daughters as it describes a tight-knit Christian family working together to solve hard problems related to adoption and ethnic heritage. Set in contemporary Seattle, Northwest Washington and southern British Columbia with a backdrop of many native cultures including Haida and Nooksack as well as Norwegian and Scottish.
