Customer Reviews

This "book" is merely a listing of attractions in Bali, but does not explain anything about them or if they are worthy to see. It does not provide any suggestions regarding itineraries, locations, etc. Waste of time.

Utter garbage. Huge font to make it look like there is more material. Returned.

Very short and general. Does not contain any info that you can't find in free flyers or online

Please don't buy this book, it is 74 pages of HUGE font type....the info in this book could have been covered in a 10 page report. This book is a "money-grab" by the author. Trust a person who was already scamed.....move on! " I " could have written this book by reading about Bali for 10 minutes and then put pen to paper. My hope is that no one else gets ripped off like I did.

Not a very good guide.

This was an amazing book! Filled with information about the specific areas of the Island and which location will be best for couples, families and those who really want to get away from it all for the peace and quiet Bali has to offer. I have wanted to visit Bali for years and hope that for my 25 anniversary we will go. With this Guide I know we won't be disappointed with all the temples, festivals, museums, white sand and black sand beaches and more! Can't wait to go.

This has a very broad and general overview of the areas giving you the names of things in that area but little information.

Inexpensive guide, but you get what you pay for. Very limited info. Links to hotels are for booking, not rating
