I loved this book when I was taking piano lessons and I still love to play the sonatinas on this book. The spine my old book was broken so I had to get a new book. First time I've ever bought a music

book again. I also got one for my sister. The book has a lot of variety. It's hard to work hard on a song that takes a long time to learn if you don't like the song. Full of popular sonatinas that you will hear in unexpected places. So good for working on timing and speed!

Hi, I love this medium hard to play Sonatinas. It is great music and helps a person play piano better. It is my favorite of all my music I have. It makes me sound like an awesome player but in reality and music is medium hard. Happiness....

Perfect, absolutely what I expected. I had my childhood piano teacher's copy (which I think came from HER childhood), at least 50 years old and falling apart. This replacement copy is perfect - now I can brush up on those classic sonatinas and look forward to my daughter using this book as well.

This is a great book either for beginners, or for more advanced students looking for fairly simple sightreading music. The pieces are in easy keys, but is still ultimately rewarding once you're done with the piece.

A wide variety of selections and plenty to keep this average player entertained for hours and hours.

All the sonatinas in this book are provided with adequate fingering. The finest composers are represented in each piece. Book is easy to open and the book stays open during the time needed for practice.

The book was in perfect condition and made a nice Christmas gift. Years ago, this was my piano book. My son's girlfriend played from my book and I was compelled to purchase one for her, because mine is a piece of history for me. Thanks for making it available.

Very good edition and a great selection of easy Sonatinas
