Synopsis

If you could find gold, silver, jewelry, and rare coins from the comfort of your home, would you? And you thought there is no such thing as free money – think again! No more running around to yard sales or flea markets. A 50 year gold and coin expert will teach you his proven techniques. With this simple system valuable items come to you – no more chasing after them. This brand new book includes special information, revealed for the first time: Find out about a coin in pocket change that is worth twice its face value – you instantly double your money, and a coin that is easily obtained that has silver inside of it and the bank tellers don't even know about this. It shows you which is the better investment (gold or silver) and why – His advice can make you lots of money. You've seen the ads on TV for buying gold and silver – forget about it: Find out how to buy from trusted dealers at a fraction of these TV ad costs. In this book you will also learn: How to get your hands on gold and silver and rare coins using successful methods and then turning around and selling for a 100% profit To identify gold and silver by markings and by testing, using simple inexpensive techniques How to buy gold and silver and coins at the best price How to find the honest and best dealers Buying and selling on eBay and how to get the greatest deal To spot fake gold and silver and coins, so you never get cheated The best investment strategy with respect to precious metals How to decide whether to buy gold coins or buy silver coins, and when the best time is How to buy gold and silver bars and rounds and from whom About precious metal ETFs and Precious Metal Mutual Funds and how these investments compare to owning physical gold and silver How to determine the rate of return from precious metal investments in any form and from rare coins? As we take this journey together , we will explore all the forms gold, silver and platinum take – from coins to bars to rounds to numerous paper forms: ETFs, Mutual funds, ETNs, Futures, Options, Savings Accounts and so much more. We will travel back and look at the return these investment types have generated over the years. Learn about the safest way to buy gold and silver and coins, how to test your products for authenticity, and how to find gold, silver and coins without running around to yard sales, flea markets and estate sales! We will examine rare coins and explain how they relate to the topics mentioned. This book will end with an introduction to coin collecting: learn how to get started and why it is so important to know about coins and how they relate to precious metal investing.

Real thorough. Nicely done. I'll be referring to it a lot.

A great introduction into gold, silver, and rare coin investing. The author really seems to know what he's talking about. If you're interested in learning more about gold, silver, and rare coin investing (which I knew nothing about before reading this book), then this book is a great place to start. Would highly recommend it.

Wow, this book is full of information that I just don't know where I could have found anywhere else. It gives explicit directions on where to find silver, gold and rare coins to buy and how to negotiate a fair price for them. Best of all, it shows you a variety of methods for determining whether or not the precious metals are real or not, so you don't have to waste time or money dealing with frauds. I say this book is the ideal guide for anyone who would like to get started with investing in these valuable items but who isn't exactly sure of where they should begin. The pictures in this guide are impeccable, making it easy to see the markings that the author is referring to on each and every piece. It also gives trustworthy outside sources for finding more information on the individual markets and credible manufacturers to work with. There's a whole chapter on how to stay out of trouble with the IRS when you're buying and selling gold and silver too, which is especially useful if you've never had to worry about that sort of thing before. The explanation of how ETFs, mutual funds and gold accounts can make lucrative investment opportunities for some was clear and the author even presents you with an idea of what you can expect from your investment over time. With such a thorough guide in my hands, I'm more excited than ever

about getting into the silver and gold marketplace once and for all!

I have been a coin collector for many years and the book gave me LOTS of information I didn't know.

This book explains all the ins and outs of investing in coins and precious metals, Fast read and excellent resources.

Im learning how to collect coins and this book is a great start

informative

I have read Sam's other books and this one is also fantastic. Anyone who wants to learn more about gold and silver and how to get the best price needs to read this. It has so much great information in it.
