This book is the bible of acupuncturist, the book came in excellent condition, really protected. I was looking for this one and is the cheaper price, buy it. It was faster than Barnes & Noble and cheaper

I really love this book. It has everything you need for the beginner to the advanced. Great for boards, clinic and as a reference book! Namaste'

I love this book. I bought this 5 years out of school. I WISH we had used this book for my classes. Clear, concise, easy to understand. The pattern of the chapters are repetitive but I think this is good! Very pleased. Wished I had bought it sooner

major improvement in layout from other editions-better type, nice colors that divide sections. Pricey, but glad I got it to study for Boards.I don't necessarily agree with all, and annoyed that Boards are TCM that are open to interpretation. That being said--a must for licensinguntil such time as revamping back towards Classics.

Product as described. Excellent shipping and quality. I am glad to have it.

Wow, this book is very thorough. Very informative.

I like it

Clear. Explains very well the topics that your teacher may not explains well enough in class.
