Customer Reviews

I bought several You Choose and Interactive History books for my 9 year old son. After reading through the book with different scenarios (are you really going to eat the white berries?) we read the book again together with me making different choices. I am proud to say I survived! There are several other books in this series that we plan to purchase. Good summer reading!

This is a great addition to our school library. It was just as described and arrived very quickly. Thank

You for your outstanding service.

My youngest daughter (age 10) is so into these books. She loves to make different choices within the books to see the various outcomes.

My grandson isn't an avid reader but he really likes the "can you survive" books.

Arrived in good condition. Interesting, thought provoking read.
